MWT Group
Education • Employment • Systems • Consultancy

The MWT Group

The MWT Group is a privately owned holding company that is headquartered in India, and comprises three main operating units – MWT Education Consultancy, MWT Technologies and the Institute of Health and Management (IHM). These companies offer specialised services in various niche segments, such as Healthcare and Management Course deliveries, Overseas Educational Consultancy, Online Education and Software development in India. Having commenced operations in the year 2002, the group has seen a phenomenal rate of growth and is now poised to face a future filled with exciting potential.

With a shared vision of Innovation, Caring and Excellence, the MWT Group is a global enterprise which is trusted for its strong business values and ethical dealings. We are always constantly innovating new techniques of teaching and consultancy, and staying on the cutting edge of technology to achieve our targets. We nurture a deep sense of caring and compassion, and this underlies everything we do. We focus on excellence in every solution we offer our clients. The MWT Group of companies has been recognized for excellence in all-round quality management, and has been awarded the prestigious ISO 9001:2008 certification.

MWT Education Consultancy

ISO 9001:2008 Certified

MWT Education Consultancy

A core subsidiary of the MWT Group, MWT Education Consultancy was established in 2002 with the goal of providing consultancy in all sectors of education including the fields of IT, Engineering, Nursing and Healthcare, Commerce and Pure Sciences. MWT Education Consultancy is an end-to-end career services centre, focusing on overseas education, student recruitment and settlement services. Our training and personal development courses help to build up personality and self-confidence in students. We provide counselling and coaching for students who are aiming at excellence in International Standardized Tests.

Having tied up with leading universities and colleges in many countries abroad, MWT offers guidance at every stage, beginning with IELTS and similar training required for the admission process, career counselling and allied course support. A vast network of affiliates worldwide helps MWT graduates maximize their professional growth and career prospects. Our highly experienced professionals with their combined experience & expertise guide students every step of the way in their chosen path. Our growing number of satisfied students stands testimony to our hard work and success.

MWT Institute of Health and Management

Institute of
Health and Management India
ISO 9001:2008 Certified

MWT Institute of Health and Management

MWT Institute of Health and Management (IHM) is one of India's leading providers of accredited health and nursing education. We offer comprehensive educational health programs that support excellence in healthcare, and foster professional growth and team work.

At IHM, we stay abreast of current developments in the healthcare industry, and deliver healthcare programs that improve patient outcomes, using the latest medical technologies and techniques. High on our list of priorities are customer welfare and support. Being pioneers in innovation, we believe in evidence based practice and global learning systems. Our user friendly online learning environment is backed up with the latest in software development and ongoing support services.

In collaboration with Institute of Health and Nursing Australia, IHM offers the Certificate III in Aged Care program, relevant to the career opportunities across the aged care sector in India. Appreciating the needs of the community, IHM has initiated specialized training Programs - "Learn to Save Life" for the public and "First Aid & Basic Life Support" for school faculty.

IHM is an accredited training centre of American Heart Association, for providing training in Basic Life Support (BLS) and Advanced Cardiac Life Support (ACLS), to health care professionals that equip them with sound knowledge and competence. We have forged strong partnerships with customers, institutions and various healthcare facilities in line with our efforts to be the foremost provider of AHA courses in the country.

The "Emergency Medical Technician Basic Course" is a certificate course prescribed by Health Sector Skill Council (HSSC) under National Skills Development Corporation (NSDC), and we are recognized by the HSSC to conduct the program. This course facilitates emergency medical support and care to critically ill individuals before they can be transported to a medical facility.

Graduates from IHM are well qualified, highly competent, dedicated and caring professionals, and have made their mark nationally as well as internationally. What makes IHM stand apart from the crowd is our adaptability to progressive change, and our relentless endeavour to sustain quality and integrity at all times.

MWT Technologies

ISO 9001:2008 Certified

MWT Technologies

Headquartered in Kochi, MWT Technologies Pvt. Ltd. commenced operations in the year 2011 with the goal of carrying out research and development of online courses for colleges and universities worldwide. At MWT Technologies, we leverage the opportunities presented by E-learning and combine it with the technology of the future to deliver value-oriented solutions for online learning. We offer multiple software solutions, and training and product support services which serve to simplify and rationalize the functionalities of educational institutions.

Our bespoke software creation follows an in-depth analysis and understanding of core customer requirements. Through a thorough understanding of your work processes, we provide smart resolutions for your challenges. We identify the apt technology that can take your business growth to the next level, and implement it in a practical and cost effective manner.

During our association with each client, we sign a contract and become their official/authorized partners in developing their system solutions. Our core management team provides support in adhering to world-class standards in planning, execution and delivery. This approach helps us to focus on innovation in services, which are adapted and integrated into work processes. We utilise the combined talent and experience of over 50 software professionals who are focused on building and customizing the latest software and technology platforms. Our strong emphasis on technology and customer-centric approach to each project has attracted a loyal customer base.
